

The dental program is a collaborative community effort between Sarah Bush Lincoln, Lake Land College Dental Hygiene Program and area dentists in the East Central Illinois Dental Society who volunteer their time.

The mobile dental clinic was made possible through the Lumpkin Family Foundation, Sarah Bush Lincoln's Funding the Future Campaign, as well as grants from Illinois Children's Healthcare Foundation, the Walmart Foundation's State Giving Program, Delta Dental of Illinois Foundation, and Rural Health Care Services Outreach.

Restorative dental care for children on the Free or Reduced Meal program is made possible by funding from WomenConnected, an SBL philanthropic giving circle.

Help us give your children a bright smile!

Oral health is vitally important for children. A healthy smile gives children more self-esteem, and helps them learn better in school.

Sarah Bush Lincoln Dental Services

The SBL Dental Services is a collaborative community effort that provides dental care at no cost to families who qualify.

The program serves a 10-county service area including Coles, Clark, Cumberland, Douglas, Edgar, Effingham, Fayette, Jasper, Moultrie and Shelby. Organizations that have existing partnerships with SBL Dental Services include 66 local elementary and secondary schools, local health departments, the Regional Office of Education #11, Lake Land College and other vital community partners.

In addition to our staff including one full-time dentist, dental assistants and hygienist, we have volunteer dentists in the community. Each year, the program reaches nearly 3,000 children.

Our Clinics

We have a clinic in Mattoon that offers comprehensive care by appointment throughout the year. Our portable and mobile dental clinics aim to remove transportation barriers. During the school year, we visit schools, and children are dismissed from class to receive services. During the summer we hold clinics in area communities.

Mattoon Dental Clinic

Our Mattoon Clinic is a fun place for kids to come and get a healthy smile. We designed the clinic to be interactive and provide oral health education the moment you walk in the door. Call and schedule your appointment today.

School Based Care

Our portable dental equipment allows us to set-up a clinic inside schools and other community buildings. Preventive services and screening exams are provided in this setting.

Our mobile clinic provides preventive and urgent care at schools. We help kids with pain and infection that wouldn't otherwise see a dentist. It features two operatories in a bright and cheery atmosphere. Each chair is equipped with a television for kids to enjoy their favorite videos.

Volunteer Dental Offices

Participating volunteer dentists provide services in their private practices at no cost to patients.

What We Provide
